

Advanced Video Production Film Viewing List

The main goal of this class is to help students be talented, critical and responsible mediamakers. They need to know how media is made, and how it communicates to audiences. To achieve this goal, it will be necessary to watch a variety of clips from important historical and contemporary films. I have prepared the following list of possible movies that I have shown clips from in the past.

I know many families have specific rules regarding media and I want to support that. Some of these films are rated PG and PG-13. Keep in mind that my aim here is to choose clips that will responsibly educate and inspire your students, never to shock or expose them to inappropriate or harmful material. For example, some of the violence in *The Fellowship of the Ring* is fairly graphic and not appropriate for some high school students. So I won't be showing the decapitations and bloody fights. But I would show the clip of Frodo on the forest path where he hears the Black Rider and the camera performs a dolly-zoom to foreshadow the approaching menace.

Please take a look at the list and circle any titles that you would like to opt out for your student. And don't hesitate to contact me if you have any questions or concerns.
